

The existing library for the Chelmsford Campus was not meeting the requirements of a modern University. The project involved the creation of a new Library entrance, which would be the focal point for students.

This area included a café seating area, IT facilities and a new reception desk. This was linked to a refurbishment and reorganisation of the support offices and book handling areas which included the installation of new book issue machines.

Project Cost:	£650,000
Programme:	12 Weeks
Completion Date:	December 2007
